

Test Plan for VWO.com – Login Module

1. Test Plan ID

TP-VWO-LOGIN-001

2. Module Name

Login Functionality

3. Objective

To verify that the login functionality of VWO.com works correctly and securely by accepting valid credentials, rejecting invalid ones, and handling UI and usability aspects properly.

4. Features to be Tested

- Login with valid credentials
- Login with invalid credentials
- Empty username or password field
- Password masking
- Forgot Password functionality
- Browser compatibility
- UI responsiveness

5. Features Not to be Tested

- Backend API functionality
- Integration with third-party auth services (e.g., Google login if not publicly accessible)

6. Test Strategy

Type of Testing: Manual Functional Testing

Test Design Technique: Equivalence Partitioning, Boundary Value Analysis, UI Testing

Environment: Web browser (Chrome, Firefox, Edge), Desktop/Mobile

7. Entry Criteria

- The login page is deployed and accessible at <https://app.vwo.com/#/login>
- Test environment is set up
- Test data is available

8. Exit Criteria

- All planned test cases executed
- All high-priority bugs resolved or accepted
- Login module passes with $\geq 95\%$ test case success

9. Test Deliverables

- Test Plan
- Test Cases Document
- Bug Report
- Test Summary Report

11. Resources Required

- Manual Tester
- Chrome/Firefox Browsers
- Stable Internet
- Access credentials (valid & invalid test data)

12. Risk & Mitigation

Risk	Mitigation
Login API might be rate-limited	Space out test attempts
Page changes during testing	Regular sync with dev team

12. Test Schedule

Activity	Start Date	End Date
Test Case Design	19-Mar-2025	21-Mar-2025
Test Execution	22-Mar-2025	23-Mar-2025
Bug Reporting	24-Mar-2025	26-Mar-2025
